

We wish to recruit a **Roof Truss Designer**

We are now recruiting for a Roof Truss Designer were, as part of the Design Team, your key responsibility will be the design of roof trusses for our housebuilding customers based in Greenbank Industrial Estate, Newry, Co Down.

Your role as a Designer will primarily involve:

- Working to interpret Architects' drawings for fabrication.
- Assisting in the provision of effective commercial solutions which will include not only designs but also quotations.
- Providing support and advice to your customers and your colleagues in production.

You will need to have the following:

- Proven experience in using specialist software for the design of roof trusses and other engineered timber products
- Experience with CAD package
- Experience working to deadlines
- Good numerical skills
- Excellent eye for detail and accuracy
- Strong communication and project management skills
- As a person you must have an interest in design, have a natural willingness to go the extra mile, and the ability to work under pressure with good humour.

This is an excellent opportunity for an experienced Roof Truss Designer, the company places a strong focus on team working each member has a valued role within the company. Therefore, whilst technical skills are key, team fit is equally critical.

Closing date: Friday 29th October 2021
